

## KGL-3338 carboxylated styrene-butadiene latex

**Application:** for the production of geogrids / fiberglass mesh (waterproof type). It is an environmentally friendly product with a very low VOC content. Chemical corrosion resistance, excellent compatibility with fillers.

**Appearance:** milky white slightly bluish liquid

### Specifications:

Indicator name	Parameters
Appearance	milky white slightly bluish liquid
Dry residue (%)	≥ 49
pH	7-9
Viscosity (mPa s)	≤ 300
Particle size (nm)	150±10
Surface tension (nM/m)	40-55
T <sub>g</sub> °C	3.5±2
VOC (volatile organic compounds, mg/kg)	≤ 60

**Packaging:** IBC cubes.
