

Technical Gas Sulfur.

Grade 9998.

Grade 9995.

Appearance: yellow or light powder or granules

Application: for production of sulfuric acid, sulfur carbon, dyes, in pulp and paper, textile and other industries.

Specifications:

Indicator name	Grade standard	
	Grade 9998	Grade 9995
Sulfur weight percentage, %, min	99.98	99.95
Ash weight percentage, %, max	0.02	0.03
Organic matter weight fraction, %, max	0.01	0.03
Mass fraction of acids in terms of sulfuric acid, %, max	0.0015	0.003
Mass fraction of water, %, max	0.2	0.2
Mechanical contamination (paper, wood, sand, etc.)	Not allowed	

Packaging: bulk in gondola cars
